Important Communication to Members

The Ministry of Corporate Affairs has, pursuant to its Green Initiative in the Corporate Governance, allowed paperless compliances by companies. It has issued circulars allowing the companies to service notice/documents including Annual Report by email to its members. Many of the shareholders have registered their emails pursuant to the said initiative. We thank those shareholders for the same. Those shareholders,

who have not registered their email addresses so far, may, as a support to this initiative, register their email addresses, in respect of electronic holdings, with the Depository through their respective Depository Participant. Members who hold shares in physical mode are requested to download the form for registering email address from the website of the Company and send it to Karvy Computershare Private Limited.
